Heptagon European Focus Equity Fund - Class PE (EUR)

ISIN: IE00BFYGF811

A sub-fund of Heptagon Fund ICAV (the "ICAV"), which is an open-ended umbrella type investment vehicle with segregated liability between sub-funds. Heptagon Capital Limited is the Investment Manager, Heptagon Capital LLP is the Sub-Investment Manager and Carne Global Fund Managers (Ireland) Limited is the Manager.

Objectives and Investment Policy

Objective

The investment objective of the Fund is to provide long-term capital appreciation by investing in European equities.

Investment Policy

The Fund will primarily invest in a concentrated portfolio of equity securities of companies that are listed or traded on the stock exchanges of European OECD-member countries. Particular emphasis is put on companies that exhibit sustainable long-term top and bottom-line growth. The Fund will, under normal circumstances, invest at least 80% of its net assets in companies that the Sub-Investment Manager believes will adhere to the Fund's environmental, social and governance ("ESG") criteria. The Sub-Investment Manager evaluates investment opportunities on a company-by-company basis and utilizes fundamental analysis to identify companies believed to have an intrinsic value greater than what is reflected in the current market valuation. This approach includes analysis of a company's financial statements, profitability, management structure, and its position within its industry, among other things. Along with determining whether a company meets the ESG criteria of the Fund, supplemental analysis is carried out to determine an individual company's ESG factors, which may vary depending on the sector.

The Fund is actively managed which means the Sub-Investment Manager is actively making investment decisions for the Fund. The Fund measures its performance for comparative purposes against the MSCI Europe NR EUR Index ("the Benchmark"). However, when selecting investments, the Fund is not required to follow the composition of this index. Additional information is detailed in the Prospectus.

Dividend Income

Dividend Income that the Fund receives is automatically reinvested into the Fund and is thus part of the share value.

Investment Period

Recommendation: The Fund is suitable for investors who seek capital appreciation over a long-term horizon but who are prepared to accept a medium to high level of volatility from time-to-time. The Fund is not designed for investors who need current income. Subscription and redemptions of the shares can be carried out on all Irish and United Kingdom business days by 14:00 hours Ireland time. Further information on the Fund's investment objective and policy can be found in the Fund's Prospectus.

Risk and reward profile

This indicator table demonstrates where the Fund ranks in terms of its potential risk and reward. The risk assessment is based on historical data and is not guaranteed to remain unchanged. It may change over time and may not be a reliable indication of the future risk profile of the Fund. The

lowest category does not mean risk free as all investments involve risks. This Fund is ranked at 6 because funds of this type have experienced high rises and falls in value in the past. Gains or losses for individual shareholders will therefore depend on the exact timing of the subscription and redemption of shares. The Fund invests in a wide range of securities in various sectors. The Fund spreads risk by means of this diversification. The following risks may not be fully captured by the Risk and Reward Indicator:

- events over which the Fund has no control, such as political or global economic risks
- in the event that the Fund does not achieve its investment objective

Additional risks are detailed in the Prospectus. This list does not purport to be exhaustive and risks of an exceptional nature may arise from time to time.
