

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Heptagon Future Trends Hedged Fund - Class P (USD)

ISIN: IE00BFYGV610

A sub-fund of Heptagon Fund ICAV (the "ICAV"), which is an open-ended umbrella type investment vehicle with segregated liability between sub-funds. Heptagon Capital Limited is the Investment Manager, Heptagon Capital LLP is the Sub-Investment Manager and Carne Global Fund Managers (Ireland) Limited is the Manager.

Objectives and Investment Policy

Objective

The investment objective of the Fund is to achieve long-term capital growth.

Investment Policy

The Fund aims to achieve its objective by, amongst other criteria, investing in companies that meet the Sub-Investment Manager's environmental, social and governance ("ESG") criteria. The Fund invests primarily in a portfolio of shares of companies located worldwide and occasionally equity related derivatives (financial contracts whose value is linked to the price of an underlying asset). The Fund will invest at least 80% of its net equity exposure in companies that the Sub-Investment Manager believes will adhere to the Fund's ESG criteria, supplemental analysis, which may vary depending on the sector, is carried out to determine an individual company's ESG factors. The Fund follows a significant ESG integration approach as every company is screened with ESG considerations such as, but not limited to: alignment with UN Sustainable Development Goals and UN Global Compact. Limitations to ESG analysis include the need for improved quality of the data available.

The Fund will be structured as a long / short equity portfolio. The Sub-Investment Manager uses a combination of both quantitative and fundamental analysis to construct the portfolio, which will typically be concentrated on company shares and use derivatives to attempt to benefit

from falls (taking a short position) as well as rises (taking a long position) in an investment's value to manage the Fund's net exposure. The Fund will typically seek to invest in businesses that have exposure to long-term trends (such as aging populations and changes in technology) that should grow in importance regardless of GDP and/or government policy, as opposed to more short-term cyclical or seasonal trends. The Fund is actively managed which means that the Sub-Investment Manager is actively making investment decisions for the Fund. The Fund is not managed by reference to any benchmark.

Dividend Income

Dividend Income that the Fund receives is automatically reinvested into the Fund and is thus part of the share value.

Investment Period

Recommendation: This Fund may not be appropriate for investors who plan to withdraw their money within five years. Subscription and redemptions of the shares can be carried out on all Irish and United Kingdom business days by 14:00 hours Ireland time. Further information on the Fund's investment objective and policy can be found in the Fund's Prospectus.

Risk and reward profile

1	2	3	4	5	6	7
---	---	---	---	---	---	---

This indicator table demonstrates where the Fund ranks in terms of its potential risk and reward. The risk assessment is based on historical data and is not guaranteed to remain unchanged. It may change over time and may not be a reliable indication of the future risk profile of the Fund. The lowest category does not mean risk free as all investments involve risks. This Fund is ranked at 5 because the mix of assets it invests in tends to

produce returns which fluctuate more than those of cash funds but less than those of funds which invest solely in the shares of companies. Gains or losses for individual shareholders will therefore depend on the exact timing of the subscription and redemption of shares. The Fund invests in a wide range of securities in various sectors. The Fund spreads risk by means of this diversification. The following risks may not be fully captured by the Risk and Reward Indicator:

- There is a risk that the counterparty with which the Fund contracts for a derivative transaction fails to meet its obligations to the Fund. This could lead to losses being made by the Fund.
- Using derivatives to take short positions can lead to losses being made by the Fund when the underlying investment is rising in value.

Additional risks are detailed in the Prospectus. This list does not purport to be exhaustive and risks of an exceptional nature may arise from time to time.

Charges for this Fund
One Off charges taken before or after you invest

Entry Charge	Max. 3.00%
Exit Charge	Max. 3.00%

Charges taken from the Fund over a year

Ongoing Charges	1.75%
-----------------	-------

Charges taken from the Fund under specific conditions

Performance Fee	15.00%
-----------------	--------

The entry and exit charges shown are maximum figures. The actual entry and exit charges can be obtained from your financial adviser or distributor. There may be a switching charge (for switching into the Fund from another fund) of Max 5%.

The ongoing charges figure is the cost of running the Fund and includes the costs of marketing and distribution. It does not include portfolio transaction costs. These charges reduce the potential growth of your investment and may vary from year to year. The ongoing charges figure shown here is an estimate of the charges. An estimate is being used as the share class has not yet launched. The Fund's annual report for each financial year will include detail on the exact charges made. For more information about charges, please refer to the "Fees and Expenses" section of the Fund's prospectus.

Past Performance

Past performance is not a guide to future performance. The Fund was launched on 09 September 2016. The share class has not yet launched; therefore there is insufficient data to provide a useful indication of past performance.
