Heptagon Capital Limited has issued this communication as investment manager for Heptagon Fund ICAV (the "ICAV"), an umbrella fund with segregated liability between sub-funds (the "Funds") and authorised pursuant to the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2011, as amended, and is licensed to conduct investment services by the Malta Financial Services Authority. Heptagon Capital LLP is authorised and regulated in the UK by the Financial Conduct Authority and is the sub-investment manager for a number of the Funds.

The results given in this document are based solely upon historical fund performance as gathered and supplied by Brown Brothers Harriman Fund Administration Services (Ireland) Limited, the ICAV's administrator, FactSet, Bloomberg, MSCI and Morningstar. It is not intended to predict or depict the future performance of any investment.

The information contained herein is provided for informational purposes only, is not complete, and does not contain certain material information about the Funds, including important disclosures and risk factors associated with an investment in the Funds. Before making an investment in any Fund, prospective investors are advised to thoroughly and carefully review the ICAV's [Prospectus](#) (the "Prospectus") as well as the supplement to the Prospectus for the Fund and the Fund's key investor information document with their financial, legal and tax advisors to determine whether an investment is suitable for them. An investment in the Funds is not suitable for all investors.

In particular, neither the shares in the Funds nor the Funds themselves have been registered under any United States ("US") Securities legislation and are not available for purchase by US persons (as defined in the Prospectus).

The Heptagon European Focus Equity Fund promotes environmental and/or social characteristics but does not have sustainable investment as its primary objective. It might invest partially in assets that have a sustainable objective, for instance assets that are qualified as sustainable according to EU classifications but does not place significantly higher importance on the environmental objective of each underlying investment. Please see [Prospectus](#) and supplement for the Heptagon European Focus Equity Fund for further information on the Heptagon European Focus Equity Fund's environmental and/or social characteristics and relevant sustainability risks and principal adverse impacts which may impact the Heptagon European Focus Equity Fund's performance.
