**Investors should note that, relative to the expectations of the Autorité des Marchés Financiers ("AMF"), the "WCM Global Equity Fund" presents disproportionate communication on the consideration of non-financial criteria in its investment policy.*

IMPORTANT INFORMATION

The following presentation provides information on the WCM Global Equity Fund (the “Fund”), a sub-fund of Heptagon Fund ICAV which is an open-ended umbrella type investment company authorised pursuant to UCITS regulations. Heptagon Capital Limited (“Heptagon”) is the Investment Manager, WCM Investment Management (“WCM”) is the Sub-Investment Manager meaning WCM exercises discretionary investment authority over the Fund and Carne Global Fund Managers (Ireland) Limited is the Manager.

This report refers to the WCM Quality Global Growth Strategy, wherein fund performance prior to 31.03.2017 relates to the WCM Quality Global Growth Composite (“Composite”) net of fees, thereafter, it relates to the UCITS Fund (IE00BYZ09Q19). The Composite includes fully discretionary Quality Global Growth equity accounts. Net return for the composite is inclusive of 1% management & other fees. The Composite was created on 31.03.2008. Since the Fund has a relatively short time period, the Strategy is presented to provide a better understanding of how the team at WCM has managed the strategy over a longer time period.

WCM manages the Fund according to the same investment principles, philosophy and execution of approach as those used for the Composite, however it should be noted that due to certain factors including, but not limited to, differences in cash flows, fees, expenses, performance calculation methods, and portfolio sizes and composition, there may be variances between the investment returns demonstrated by each portfolio in the future.

For the same reason, although the following presentation makes extensive reference to the performance of WCM as sub-investment manager of the Composite, the data for the Composite is provided purely for indicative purposes to demonstrate how WCM has performed historically in its role as investment advisor to this specific strategy. The performance for the Composite is not the performance of the Fund and is not an indication of how the Fund would have performed in the past or will perform in the future. This material should not be viewed as a solicitation or offer of services by WCM. It is provided for informational purposes only. The information contained herein does not constitute an offer to sell or the solicitation of an offer to purchase any U.S. registered security or U.S. investment product.

Any performance data quoted represents past performance. Performance figures are also shown for the MSCI® All Country World Index Return, (“**MSCI AC World Index**”). The MSCI® All Country World Index is a trademark/service mark of Morgan Stanley Capital International. The MSCI® All Country World Index is designed to measure global developed and emerging equity market performance. The index is unmanaged; is market-value weighted; and is shown for illustration only; and cannot be purchased directly by investors.

The investment return and principal value of an investment will fluctuate so that the investor's shares, when redeemed, may be worth more or less than their original cost. Any investor should consider the investment objectives, risks and charges and expenses of the Fund carefully before investing. The Funds' prospectus and simplified prospectus contain these and other important information about the Fund. The prospectus should be read carefully before investing. Please email london@heptagon-capital.com for a free copy of these documents. WCM claims compliance with the Global Investment Performance Standards (GIPS®).

WCM INVESTMENT PHILOSOPHY & PROCESS

INVESTMENT PHILOSOPHY SUMMARY

Moats

- Businesses with durable and growing competitive advantages.

Culture

- Great people, empowered and engaged, define success.

Tailwinds

- Businesses benefiting from long-lasting global trends.

Focused

- Only best ideas; seek to outperform with controlled risk.

Valuation

- Owning great growth companies at fair prices contributes to margin of safety.

An organization's culture can be its best competitive weapon. Effective cultures operate below competitors' radar screens. They are hard to replicate without a wide-ranging set of changes in a competitor's internal strategy. Best of all, in today's interactive, interlinked, Internet-driven competitive world, unlike information of a strategic nature, they can't be hacked. ”

James L. Heskett

Professor Emeritus, Harvard Business School author of *The Culture Cycle* (FT Press, 2012)

INVESTMENT PHILOSOPHY

Moats

- Economies of scale
- Intellectual property
- Best-in-class reputation
- Sticky relationships with customers
- Network effect
- Low-cost provider
- Legal or regulatory

Culture

First, One Must 'Walk the Talk'

- Headquartered in Laguna Beach, CA
- Chief Culture Officer

Second, Focused Culture Research

- Full-time Business Culture Analyst
- Formal collaboration with Dr. Heskett and other experts has led to a robust culture-assessment framework embedded within our research process

Tailwinds

New Secular Growth Themes:

- Obesity drugs
- Artificial Intelligence
- Energy transition
- Defence spending
- U.S. infrastructure spending

Favourable Cycle Setups:

- Consumer internet
- Aerospace
- SaaS/Services
- Insurance
- Price umbrellas in consumer goods

Focused

- We refuse to dilute our best ideas with inferior ones, so we invest in a focused fashion.
- Typical holdings ~30-40

Valuation

- Drives us to great growth companies at fair prices
- Contributes to margin of safety
- Helps with downside protection
- Not "buy and hold"; rather, "buy and manage"

INVESTMENT PROCESS SUMMARY

Basic Screens

- ≥ \$3.5 billion market cap
- Exclude obvious non-growth industries (e.g., utilities, basic materials, traditional telcos)

~2,100 names

WCM Screens

- High / rising ROICs
- Low / no debt
- High / rising margins
- History of sustainable growth
- High-level business review

~450 names

Individual Business Review

- Moat trajectory
- Corporate culture
- Tailwind / theme
- Valuation work
- Risks to thesis

~225 names

Team Review

- Diversification considerations
- Position size management
- Portfolio risk profile
- Moat, valuation comparisons
- ISG vote

~30-40 positions

STEP 1: IDEA GENERATION

I Multi-disciplinary process combining thematic and company-specific influences

Personal experience informed by a well-defined template

- Live, listen and learn
- Read, study and reflect
- Identify and consider the big ideas
- Follow respected thinkers and investment greats

Pattern Recognition

- Identify companies, regardless of industry and region, that have been in similar situations – “History may not repeat, but it rhymes.”
- This is most conducive to a generalist, go-anywhere approach

STEP 2: QUANTITATIVE ANALYSIS

| Backward-looking screens help narrow global universe

Basic Screen Examples

- Eliminate market cap below \$3.5 billion
- Eliminate non-growth industries

Result: ~2,100 names

Quality Growth Screen Examples

- High / rising returns on invested capital in excess of cost of capital
- Low / no debt
- High / rising margins
- History of sustainable growth

End result: ~450 names for consideration

STEP 3: FUNDAMENTAL ANALYSIS

Protected by a growing economic moat?

- Strong competitive position
- Solid evidence of strengthening advantages

Robust culture driven by visionary leadership?

- Culture is well-articulated, consistently applied
- Culture supports and sustains the moat

Healthy tailwind?

- Clear and simple business model
- Understandable, high-quality, in-demand products / services
- Positioned for significant, long-term growth

Attractive valuation?

- Multi-faceted, case-by-case approach to quantitative valuations
- Corroboration with alternate and/or heuristic valuation techniques

Portfolio Construction

Monitoring & Sell Discipline

The Investment Strategy Group goes through a lengthy, arduous process involving both quantitative and qualitative comparisons. A new holding makes it into the portfolio only after intense debate regarding its relative merits in every important area.

For illustrative purposes only

Portfolio Construction

- **Initial positions:** 2–3%
- **Maximum position size:** ~10%
- **Maximum industry exposure:** ~15%
- **Exposure to at least:** 15 industries
- **Maximum sector size:** ~35%
- **Maximum emerging markets exposure:** ~35% by domicile
- **Other construction factors:** currencies, regions, tailwinds, moat typologies

Proper risk controls also include quality of the investment, market capitalization of the company, trustworthiness of management, type and condition of the industry and adherence to a well-defined sell discipline.

For illustrative purposes only

Monitoring & Sell Discipline

- Moat is no longer expanding
- More attractive company
- Culture is challenged
- Valuation is excessive

Risk Warning: The Fund is subject to special risk considerations including geographic concentration risk, portfolio concentration risk and operational risk. The investment return and principal value of an investment will fluctuate so that the investor's shares, when redeemed, may be worth more or less than their original cost. Any investor should consider the investment objectives, risks and charges and expenses of the Fund carefully before investing. Where an investment is denominated in a currency other than the investor's currency, changes in rates of exchange may have an adverse effect on the value, price of, or income derived from the investment. WCM QUALITY GLOBAL GROWTH COMPOSITE DISCLOSURE

Quality Global Growth (QGG) Composite contains fully discretionary QGG equity accounts. WCM seeks to invest in global growth companies greater than \$3.5 billion in market capitalization. WCM also seeks companies with high or rising returns on invested capital in excess of cost of capital, companies with no or low debt, high or rising margins, and a history of sustainable growth. For comparison purposes, the composite is measured against the MCSI All-Country World Index (ACWI). In presentations shown prior to 31 Dec 2013, the composite was compared against the MSCI World Index. The benchmark was changed to more appropriately reflect the developed and emerging markets exposure of the composite. Additional information regarding the prior benchmark is available upon request. The minimum account size for this composite is \$1 million in equities. Prior to 1 Jan 2014 there was no minimum account size for this composite.

As of 1 Jan 2017 the composite was redefined to only include accounts eligible to invest in issuers' ordinary shares. Previously, the composite also included accounts that restricted investments to US-denominated securities. The composite was redefined to reflect the larger opportunity set available to our ORD-eligible accounts.

WCM is an equity portfolio, fixed income portfolio and balanced portfolio investment manager. WCM is registered with the U.S. Securities and Exchange Commission and is defined as an independent investment management firm that is not affiliated with any parent organization. Total Product Assets are defined to include all client assets managed to the QGG style. The firm maintains a complete list and description of composites, which is available upon request.

Results are based on fully discretionary accounts under management, including those accounts no longer with the firm.

For comparison purposes, performance is presented gross of foreign withholding taxes on dividends, interest income, and capital gains for the composite and the benchmark (ACWI). Accounts experiencing cash flows equal to or greater than 20% of their value are temporarily removed from the composite during the month in which the cash flows occur. Accounts rejoin the composite the following month. In instances where assets are being transferred into or out of an account, the account will not be removed from the composite, even if the flow is equal to or greater than 20% of the account value, if the complete transfer (all assets) matches the account's strategy/model on the day of transfer. Additional information regarding the treatment of significant cash flows is available upon request. Past performance is not indicative of future results.

The U.S. Dollar is the currency used to express performance. Returns are presented gross and net of fees and include the reinvestment of all income. Net of fees is calculated using actual management fees.

The annual composite dispersion presented is an asset-weighted standard deviation calculated for the accounts in the composite the entire year. Policies for valuing portfolios, calculating performance, and preparing compliant presentations are available upon request.

The management fee schedule is as follows: 1.00% on all assets. Fees are negotiable.

The Quality Global Growth (QGG) Composite was created 31 Mar 2008. WCM Investment Management claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS® standards. WCM Investment Management has been independently verified for the periods 1 Jan 2017 through 31 Dec 2019 by ACA Performance Services, LLC and 1 Jan 1993 through 31 Dec 2016 by Ashland Partners & Company LLP. A copy of the verification report is available upon request.

Verification assesses whether (1) the firm has complied with all the composite construction requirements of the GIPS® standards on a firm-wide basis and (2) the firm's policies and procedures are designed to calculate and present performance in compliance with the GIPS® standards. Verification does not ensure the accuracy of any specific composite presentation.
